ONE LOYALTY PROGRAM. ONE SOLAR PARTNER. ZERO REASONS TO KEEP PAYING FULL ELECTRICITY PRICE.

Every successful business knows the rule:

YOU REAP WHAT YOU SOW.

In the past, you've been sowing loyalty – choosing Bayer season after season, product after product, harvest after harvest. And with every purchase, your Legend by Bayer points have been growing, waiting for the right

moment to pay you back.

That moment has arrived.

SunRanch Solar has officially joined the Legend by Bayer platform as a redemption partner.

Which means points you've earned doing what you already do – farming and managing a business – can now contribute toward

something that changes the economics of your operation permanently.

Not a discount for another jacket. Not a voucher for a braai grid.

Renewable energy. On your farm. Reducing what you pay for electricity. Every single month.

THIS IS FOR YOU – THE LEGEND BY BAYER FARMER

If you're already part of the Legend by Bayer program, this is your moment. You've built up your points profile, you've been loyal to Bayer, and now the platform is giving you access to something genuinely valuable in return – a SunRanch Solar voucher that carries real Rand value, applied directly to the cost of a large-scale solar or battery storage installation on your farm.

You sowed the loyalty. Now it's time to reap the power.

HOW THE VOUCHERS WORK

It's straightforward – here's how your points go from platform to a SunRanch Solar product.

1 Call us first

Before you redeem anything, get in touch with SunRanch Solar. We'll assess your energy needs and design a system that fits your operation. Already have solar or battery storage? Your vouchers also cover maintenance, upgrades and repairs.

2 Get your proposal

Based on your site and energy usage, we'll put together an initial system design and installation cost estimate. No guesswork, no generic quotes – a proposal built around your farm.

3 Ready to go? Let's get started.

Once you're happy with the proposal and ready to move forward, we kick off our standard installation process – finalising the system design and concluding the installation agreement.

4 Purchase your voucher on Legend by Bayer

Once everything is locked in, it's time to head to the Legend by Bayer platform and use your points to purchase your SunRanch Solar voucher.

5 Send us your vouchers

Email us your voucher confirmation and we'll subtract the Rand value directly from your final invoice. **Simple as that.**

A FEW THINGS WORTH KNOWING

- Vouches are redeemable toward SunRanch Solar services only.
- They're issued on a Rand value basis and deducted from your final invoice.
- Because every farm system is different, your voucher will offset the cost. Any remaining balance is settled per the project payment terms.
- Multiple vouchers can be combined towards a single installation – so if you've been stacking points, stack those vouchers too.
- Vouchers are valid for 12 months from the date of purchase.
- Vouchers cannot be exchanged for cash.

WHO IS SUNRANCH SOLAR?

SunRanch Solar is a turnkey EPC renewable energy company operating across South Africa and Southern Africa. We design, install, and maintain large-scale PV and battery energy storage systems – from 200 kWp embedded generation setups right up to 10 MWp utility scale solar parks – purpose-built for large scale agricultural, commercial, and industrial operations.

Our mission is simple: **help you spend significantly less on electricity**, year after year, through a system that delivers long-term returns on your energy investment.

We've done the big installs. We understand agricultural energy. And now we're in your corner on the Legend by Bayer platform.

THE SEEDS HAVE BEEN PLANTED. TIME TO HARVEST.

Your Legend by Bayer points is ready. Your farm deserves the investment. And SunRanch Solar is ready to make it happen.

Get in touch today and let's talk about what renewable energy can do for your operation.
